EXPERIENCE

Copernus Ltd Apr 2025 -Present
Team Leader | Yorkshire, UK
- Lead production team; manage shift scheduling, quality checks, and compliance reporting.
- Built internal data tools for tracking output and traceability using Python and Excel automation.

Cranswick Convenience Foods Jul 2024 -Apr 2025
Production Operative | Yorkshire, UK
- Managed production data, batch records, and temperature compliance across food safety protocols.
- Identified reporting inefficiencies; prototyped automated compliance dashboard (BRC/HACCP).

PROJECTS

UK Crime Pipeline github.com/Pawansingh3889/uk-crime-pipeline
- End-to-end pipeline: Police UK API -> PostgreSQL -> dbt -> Streamlit + BigQuery -> Looker Studio.
- 99,675 records. dbt staging/marts with 65 tests (53 PostgreSQL + 12 BigQuery). 3 CI/CD workflows.
- Idempotent upserts (ON CONFLICT DO NOTHING), retry with exponential backoff, daily health checks.

sql-sop pypi.org/project/sql-sop
- SQL linter published to PyPI. 15 rules, 21 tests, compiled regex (0.08s/200 files). Pre-commit + GitHub Action.

OpsMind github.com/Pawansingh3889/OpsMind
- On-prem NL-to-SQL for manufacturing. 147-table schema, RAG search, 36 pytest tests. Runs on Ollama.

Compliance Dashboard github.com/Pawansingh3889/manufacturing-compliance-dashboard
- BRC/HACCP food safety: batch traceability, z-score anomaly detection, allergen matrix. Live on Streamlit.

OPEN SOURCE

- drt-hub/drt: 5 destination connectors (ClickHouse, Parquet, Teams, CSV/JSON), connector tutorial. 12 merged PRs.
- Contributed to pandas, ChromaDB, pgcli, Electricity Maps, Open Climate Fix, ScanAPI.
